Homepage
- Our Advocates row will possibly show the top 5 or so companies with the most number of job postings, while the other sections are mostly just images that are links to external sites.
- Keyword search should be very fast.

Search Results list
- Search criteria to follow

Opening a specific job
- Fields to be finalized
- There will be statistics to measure job posting performance TBD
- Similar Jobs section is a nice to have, depending on the size of development effort

Employer view

- If the user searches for a company, or clicks on the company link from the job post, he will be redirected to the list below. These are all the active (not expired, not deleted) jobs from the employer.
